These websites spy on your DNS routes, IMEI Numbers and IP Address and create an eternal psychological profile on you. They sell this info to the DNC, The NSA and AXCIOM who use the data to manipulate your political opinions. All of your data and sexting texts are on record with them forever and sold to hundreds of psychological marketing services, spy agencies and political organizations because you are the most vulnerable when you are trying to get laid or get a hug.

These companies (and Chelsea Clinton) are RAPING your minds, your thoughts, your emotions and your rights.

These companies share the world's largest database of fake profiles that they keep using to suck you with fraudulent fake profiles.

IAC is BACKPAGE.COM with a white curtain in front of it.

Demand a federal investigation of IAC and shut down their abusive companies!
