"Woke" is the ideology that straight White People did bad things to you, and all of your ancestors, so you have to get revenge on all of the current straight White People. California schools and politicians created this idea because non-European peoples control those institution in California. Silicon Valley and 'Hollywood' , in California, control most of the world's media and those media companies only hire 'work employees'. The more California politicians can push this idea, the more money those politicians can get from government and non-profit funds. The more non-white immigrants California lets over the border, the more the demand for Woke Payments will increase. The end result of all of the borders-for-votes scandal will be very interesting. The USA has the most 'free-stuff' of any nation on Earth, so every other nation is bleeding people who are coming for the free stuff.
